

Benefits of Using a Professional Agency

Reputable Nanny Agencies are invaluable for their knowledge, expertise and support to both the parents and nannies

Agencies save time

Many families are realizing the benefits of hiring a nanny through our professional nanny services. Choosing a nanny from us will ensure the highest quality care and support. Hiring a nanny on your own can be time consuming and frustrating. We at International Nannies & Homecare Ltd. will make every possible effort to ensure a smooth and efficient hiring process. Juggling family life and work means that you may not have the time to fully commit to finding the right nanny for your family. We aim to take all of the detailed administrative and government hassles off you from start to finish.

Greater selection of applicants

When parents hire a nanny using International Nannies & Homecare, they are getting the best and most qualified nannies. Nannies from International Nannies & Homecare come with a number of different certifications and have years of work experience. In many cases, they will even have college degrees. Our nannies are pre-screened, have been met in person and must present a recent medical checkup as well as a police clearance to make sure they can be trusted with children. Parents will feel secure knowing that the nanny they hire from International Nannies & Homecare is not a stranger they found through an online posting.

We partner with you

The vast majorities of nannies in Canada come from overseas and are on the Live-In Caregiver Program. We partner with you to provide the Canadian Government with all necessary documentation to ensure the hiring process is as quick and as smooth as possible.

On-going support throughout the hiring process

International Nannies & Homecare Ltd. provides ongoing support after a family has hired a nanny. This is to ensure that if the family has any concerns, they have us to turn to. We will provide follow up calls after a certain period to see how things are going with the new nanny. Families who use our services have a very low turnover rate because the nanny integration is extremely successful. We are available for advice and tips for a wonderful and harmonious relationship. The team at International Nannies & Homecare prides themselves on being available for you both before and after any placement. We will respond to all questions and queries promptly and endeavor to support you to the best of our abilities through all your placements with us.

Our goal matches your goal

Our founder Manuela Gruber Hersch who arrived in Canada as an international nanny and is a current nanny employer, is well aware of the importance of the right match for both sides. We aim to find the best possible nanny match for your family.
